

## INTEGRATION PARTNERS

Skyward has developed meaningful relationships with key business partners in order to add value to our product lineup by providing interfaces with commonly used third-party products. While these interfaces are not a requirement to successfully run or utilize Skyward technology, they can certainly add efficiencies if you are already using any of these products in your current business practices (additional costs may apply).

One of the key benefits of Qmlativ is its improved integration capabilities. We're laying the groundwork now for the tightly knit, multi-system infrastructure for future school districts.
