

Pennsylvania | **Implemented:** 2009 | **Schools:** 22
Enrollment: 17,500 | **Product:** SMS 2.0 Business

Summary

Allentown found an easy shift to a modern, web-based solution from a manual, text-based system—but they never dreamed it would save them thousands of dollars.

Benefits at a glance

- Business automation lowers costs
- Web-based solution can be accessed anytime, anywhere
- Easy to implement
- Intuitive user-centric design makes the solution easy to use

Before Skyward, we were printing somewhere around 2,400 print stubs every two weeks, and many of those had to be mailed. On top of printing and postage costs, we needed people to do all the work of printing and stuffing envelopes. The cost savings has been significant.
