

Graduation Planning for Future Success

Big-picture visibility for parents and students to make better long-term decisions.

WHAT IS GRADUATION PLANNING?

Graduation planning provides high school students with an academic roadmap that aligns with long-term education and career goals. It doesn't just help students meet graduation requirements – it helps them choose courses that reflect where they are headed.

GRADUATION PLANNING WITH FAMILY ACCESS

- Have a clear overview of your child's course requirements
- Track your child's progress towards graduation
- Use career plans to map out course request selections
- Sign off on endorsements

Students on track at 9th grade are 4x more likely to graduate.
