

South Dakota | **Implemented:** 2007 | **Schools:** 23
Enrollment: 13,200 | **Product:** SMS 2.0 Student & Business

Summary

When the state offered Rapid City Area Schools (RCAS) a free student management system, RCAS stuck with Skyward.

Benefits at a glance

- Frequent new features via automatic updates
- Cloud-based data backups
- Up-to-date reporting
- Increased family engagement
- District-driven enhancements to a strong solution

We are able to operate with fewer administrative employees than other districts. Most require approximately five to six systems to accomplish what we do with just one.
